

caught, see the idea? People will say, "Well, I caught a fish weighed so much." So previous to this Mr. Stevens said to me, "How about getting up a fishing club?" of course this will only lead up to this particular thing. I said to him one time, "Let's get up a fishing club here in the borough," and we had talked about getting up this fishing club so as to have sport and bring other people here to fish. And he said, "I wonder how much it would cost for dues and so forth?" I said, "Some night or some time I will tell you what you do. You get together and we will start up a fishing club." Then fishing time, we fished a great deal daytimes but this night I would not have remembered it only an argument came up. Now, I am coming to the point. An argument came up that I had not caught a fish. In the first part of the evening I was fishing at President Avenue.

Q Where is President? A. Magee comes next.

Q North? A. Yes. Then comes Reese. Then comes President.

I fished always between President and Magee as a general thing, right at President, at Reese. See, I live on Reese, so I generally fish right at Reese Avenue. I did not catch anything that night at all, did not do anything, so this night I moved down here, and when I moved down--

Q You mean you moved down in the direction of Brown Avenue?
